## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8 and 11-13, drawn to an abrasive article of chordlike, classified in class 451, subclass 526.
  - II. Claims 9-10, drawn to a method of resharpener an abrasive article, classified in class 451, subclass 56.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus or the chordlike abrasive article can be used to polish an article.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Ms. Ronit Gillon on June 22, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3723

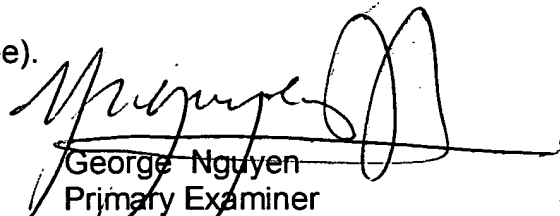

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
